UPHOLSTERY COMPANY

Royal 16 Kit - Seamless

Our kits are made by hand in our shop. Over the years we have developed patterns and scrutinized the details such as foam density and cushion style to make our upholstery truly superior.

Since we make our kits to order, we can customize them to suit your needs. We can add sling or remove wings. We can add lumbar support or make a custom headrest.

Chairman Plush with Ultraleather & Memory Foam

The standard kit is seamless asepsis style to allow for easy cleaning. The plush style has seams in the seating area of the cushions. This is a much more stylish look and coupled with memory foam and ultraleather can make a very comfortable dental chair.

We can take your chair and completely change its look, style and comfort.
